EtherNet/IP (HX7, HY10)

The drawings, photos and graphics used are for illustrative purposes only.

Descripción

EtherNet/IP - (Ethernet Industrial Protocol), an industrial communication protocol using Ethernet. EtherNet/IP is based on CIP (Common Industrial Protocol) and is widely used in industrial automation. The use of the EtherNet/IP interface ensures compatibility of Radwag weighing systems with other manufacturers' industrial automation components. This approach results in easier and faster integration of scales with PLCs, HMI operator panels or industrial robots.
