R-Cloud

The drawings, photos and graphics used are for illustrative purposes only.

Overview

The R-Cloud is a RADWAG service that enables access to results stored in a cloud. Access to the stored data is possible from any place with Internet connection regardless of the location. Open <https://rcloud.radwag.com/> website and carry out registration procedure.

Currently the R-Cloud allows to present ambient conditions recorded via the THBR Box. Each newly added sensor operates for 30 days. Temperature, pressure, humidity, air density and vibration values are presented in a form of a graph that is refreshed every 1 minute. A report can be sent to 3 different email addresses. The R-Cloud is disabled on mobile devices.
