

INNOVATIVE SOLUTIONS OF THE SYNERGY LAB LINE

# Innovative solutions applied in SYNERGY LAB microbalances guarantee extraordinary precision of top-class measuring equipment

#### **Antistatic Ionizer**

- electrostatic charge compensation inside the weighing chamber
- compensation of positive and negative ions
- operation signalled via LED diode

#### **Smart Min Weight**

- automatic adjustment of range to the weighed mass
- improvement of the minimum sample weight by 30%

#### **2-Point Adjustment**

 repeatable weighing precision under variable ambient conditions

### Innovative System of Pressure Equalization

- guarantee of stable measurement
- elimination of errors generated by rapid change of pressure inside the weighing chamber

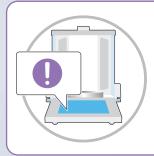

#### **Reflex Level System**

- ground tilt test
- fully automatic levelling

#### **Feet of Brand New Design**

- better balance stability
- protection against unfavourable level change

#### **Warnings System**

- system warning against potential error occurrence during the weighing process
- sensors for constant monitoring of ambient conditions and level status

#### 21 CFR Part 11 Compliance Module

All balances of XA 4Y.A PLUS series are complaint with 21 CFR part 11 regulations and with provisions of EU GMP part 4, annex 11. This means that they support electronic signature and are equipped with a number of security and monitoring functions that control work of particular operators.

#### **Full Data Protection**

- · advanced password settings
- verification of log-in operation correctness
- · assigning operators with individual permissions
- auto logout
- electronic signature, e.g. for series of measurements
- · granting/denying access to data management
- data backup
- · modifications saved to Audit Trail file

#### **Functionality** and Ease of Operation

- 5.7" colour touch panel
- · simple and intuitive operation
- numerous weighings functions and applications

between the indicator and the weighing instrument enables operating the balance that is placed inside laminar flow hoods and fume cupboards

**Parts** counting

Multilingual menu

- Removable Weighing Chamber
  fully removable weighing chamber components
- uncomplicated and fast disassembly requiring use of no tools
- latch-type system for components
- easy maintenance and cleaning

#### Lit-Up Weighing Pan

- optional weighing pan lit up with use of a LED diode
- no influence onto the temperature in the weighing chamber

#### **Automatic Door**

- system of auto control of the weighing chamber door opening and closing
- possibility to define how wide the door is to be opened
- elimination of measurement-disturbing vibrations

## **Technical Specifications**

XA 4Y.M.A.P PLUS (for piston pipettes calibration)

		(101 pistoii pipettes calibration)
Maximum capacity [Max]	6 g – 52 g	6 g – 52 g
Readability [d]	1 μg – 5 μg	1 µg — 5 µg
Repeatability	1 μg — 2.5 μg	1 μg — 2.5 μg
Linearity	$\pm 7~\mu \mathrm{g} - \pm 20~\mu \mathrm{g}$	$\pm 9~\mu \mathrm{g} - \pm 20~\mu \mathrm{g}$
Minimum weight USP	2 mg — 5 mg	2.4 mg — 5 mg
Minimum weight	0.2 mg — 0.5 mg	0.24  mg - 0.5  mg
Stabilization time	~ 3.5 s	~ 3.5 s
Adjustment	internal (automatic)	internal (automatic)
Weighing pan dimensions	ø 30 mm (openwork)	ø 26 mm
Communication interfaces	$2 \times$ USB-A, $2 \times$ RS 232, Ethernet, $4 \times$ IN / $4 \times$ OUT (digital), Wi-Fi $^{\circ}$	

Repeatability is expressed as a standard deviation from 10 weighing cycles (for load value of 5% Max). | Wi-Fi ° is a registered trademark of Wi-Fi Alliance.
